

# How Much Are You Losing by Not Earning From Your Network?

## Earn through referrals!

Monetize your network by referring software projects to JetBase → earn a commission on every paid invoice.

👉 [Explore the process](#)

## Your commission

You can get up to **10%** from the paid invoices\*

**Large pr.**    \$67500 → **\$6750** /month

**Medium pr.** \$24750 → **\$2475** /month

**Small pr.**    \$7200 → **\$720** /month

\* If the total value of invoices issued and paid for all projects is up to \$100,000, you receive 8% of the revenue. Exceeding \$100,000, the commission increases to 10%. If you refer multiple projects, the total value of all issued invoices is combined, and your commission is calculated based on the overall amount.

\*\* The commission is valid for one year per project. Each new project qualifies for a new commission payout.

### ✓ Earn without selling

You refer. We close. You get paid — simple as that.

### ✓ Monetize your network

Turn your contacts into real income — no quotas, no chasing.

### ✓ Work with a trusted tech team

We've delivered dozens of successful IT projects — your referrals are in good hands.

### ✓ Work on your terms

No conflict with your current job, full transparency, and you can track deals anytime.
